Oregon boasts 34,400 farms that cover 16,300,000 million acres. In 2014, sales of farm and ranch products contributed $5,601,332 to the state’s economy.

The farm bill touches everyone in Oregon in numerous ways. It is targeted to farmers and ranchers, used to support infrastructure and economic development in rural communities, incentivizes maintenance of good conservation practices and helps provide access to food for those less fortunate and breakfasts and lunches for school children.

The farm bill provides a safety net to farmers and ranchers during difficult times.

From 2009 to 2015, USDA invested more than $1.7 billion in Oregon for programs that provide access to credit, support a strong farm safety net, and promote new markets for farm and ranch products.

In 2016, Oregon farmers and ranchers received:

- **$21,250,523** in Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs that provide revenue and price loss payments to eligible producers; and
- **$1,961,653** in commodity loans to eligible producers who use their crops as collateral.

The farm bill provides credit to beginning farmers and ranchers and to those who are temporarily unable to obtain private or commercial credit elsewhere.

In 2016, Oregon received **$53.3 million** in farm loans including:

- **$30,595,783** from the guaranteed loan program. USDA guarantees loans made by conventional ag lenders for up to 95% of any loss. In 2016, USDA guaranteed 46 farm ownership loans, 48 operating loans, 32 loans to beginning farmers and 9 guaranteed loans targeted to underserved producers;
- **$20,850,568** in direct loan programs that are provided to those unable to obtain guaranteed loans. In 2016, USDA funded 36 farm ownership loans and 250 operating loans that included 21 youth loans, 174
direct loans to beginning farmers and 69
direct loans targeted to underserved
producers; and
• $1,839,076 in microloans which are direct
farm ownership and operating loans
designed to meet the needs of smaller, non-
traditional and niche type operations. In
2016, 64 microloans were made.

The farm bill provides funding for conservation programs to help
farmers and ranchers keep land in production while improving the
condition of natural resources.

From 2009 to 2015, USDA invested $796 million to conserve and protect Oregon's
land, water and air resources.

In 2015, Oregon received conservation assistance including:

• $21.2 million in Environmental Quality Incentive Payments to provide financial and technical assistance
to agricultural producers to plan and implement conservation practices that improve their land;
• $22.6 million in Conservation Stewardship Program payments that supports ongoing stewardship of
private agricultural lands by providing payments and technical assistance for maintaining and enhancing
natural resources; and
• 35.3 million to enroll 523,380 acres in Conservation Reserve Program to remove environmentally
sensitive land from agricultural production and plant species that will improve environmental health and
quality of the soil.

The farm bill helps fund a portion of the crop insurance programs
purchased by farmers to provide a safety net for times of price and
weather disasters.

In 2015, 68% of all eligible acres were insured under the crop insurance program. In Oregon, this included:

• 1 million acres or cropland;
• 167.6 thousand acres were enrolled in the Pasture, Rangeland and Forest program and $2.3 million
in indemnities were paid;
• $19.5 million in government-paid premium discounts to make the crop insurance policies more
affordable for producers; and
• $51.9 million in crop insurance indemnities.
The farm bill provides authority for several ad hoc disaster assistance programs to help producers suffering from maladies such as droughts, floods, freezes, fires and tornadoes.

In 2016, Oregon received $40.3 million in supplemental and ad hoc disaster assistance including:

- **$6.3 million** in Non-Insured Crop Disaster Assistance Program to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters;
- **$318.2 thousand** in Livestock Indemnity Program payments that provide partial reimbursements to eligible livestock owners for livestock losses suffered due to natural disaster or other emergencies;
- **$32 million** in the Livestock Forage Disaster Program to compensate eligible livestock producers who suffered grazing losses for covered livestock on land that is native or improved pasture land with permanent vegetative cover or is planted specifically for grazing; and
- **$980 thousand** for the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program to provide emergency assistance to eligible producers that have losses due to diseases or adverse weather.

The farm bill promotes agricultural exports.

In 2015, exports of farm and ranch products contributed **$1.9 billion** to the Oregon economy.

The farm bill supports producers of fruits and vegetables.

Oregon received **$12.2 million** from the Farm Bill Specialty Crop Block Grant Program to use on 177 projects to increase competitiveness and profitability of producers from 2008 to 2015.

- In 2015, Oregon received **$3 million** to fund the Fresh Fruit & Vegetable Program to be used in 128 elementary schools; and
- USDA helps promote farmer’s markets through promotion programs and extra funding for the purchase of fruits and vegetables at Oregon’s 170 farmers’ markets.
The Farm Bill provides opportunities for better health for Oregon citizens.

In 2016:

- **23,402,375 breakfasts** were served to **146,582** children in the school breakfast program;
- **48,101,998 lunches** were served to **303,164** children in the school lunch program;
- **92,792 people** participated in the Women, Infants and Children Program; and
- **695,334 people** were assisted by the Supplemental Nutrition Assistance Program.

The farm bill helps support economic development for rural areas of the state.

From 2009 to 2015, USDA invested **$3.8 billion** to support affordable housing, create jobs and promote economic opportunity for those who live, work and raise their families in rural Oregon.

The farm bill provides funding to promote infrastructure.

These development programs include assistance for expanding and improving broadband and telecommunications, water and wastewater, electricity and construction of community facilities like fire stations and libraries. From 2009 to 2015, USDA invested **$423 million** in infrastructure development.

Despite its name, the farm bill affects far more than the small population of Americans who work as farmers or ranchers.
